

ADOBE LOOS & WORMS

Organic Waste & Wastewater Treatment Systems

NATURE LOO CLASSIC 750

The **Classic 750** is the standard batch system toilet for domestic installations. Since its development in 1992 thousands have been sold all over Australia. Its strengths are its small under floor space requirements, simplicity, minimum maintenance and unlimited capacity with the purchase of additional chambers. Most importantly, it is the lowest priced family composting toilet in Australia. **The Classic 750 is approved in all states and is Australian Standards 1546.2 certified.**

The **Classic** range is **complete** with everything required for installation, **including pedestal and seat**, except, for reasons of freight cost, the external vent pipe and absorption trench materials, which can be bought from your local hardware shop for about \$80.

The minimum height required to install the chamber beneath the bathroom floor is 75 cm (2' 6 1/2").

Included in the standard Classic 750 - 2 Package are:-

- Fibreglass clean white hard wearing pedestal and matching seat.
- 2 composting chambers (65 cm high x 60 cm diameter).
- Waste connecting chute (70 cm in length - can be cut by you to suit your installation).
- Ventilation system including a 12 or 24 volt fans (only 1.8watts) and transformer.
- Easy to follow installation and maintenance manual.
- Start with 2 chambers and add an additional chamber later.

Price: \$2,970 Capacity: 3 people on a permanent basis
